.card__logo--small {}
```

BLOQUE

```
<!-- BIEN -->  
<div class="list"></div>
```

```
<!-- MAL -->  
<div class = "big-text"> </div>
```

ELEMENTO

```
<!-- ejemplo 1 -->  
<ul class="list">  
  <li class="list__item">ITEM 1</li>  
  <li class="list__item">ITEM 2</li>  
</ul>  
  
<!-- ejemplo 1 -->  
  
<form class="login-form">  
  <input class="login-form__input">  
  <button class="login-form__button">  
</form>
```

ELEMENTO

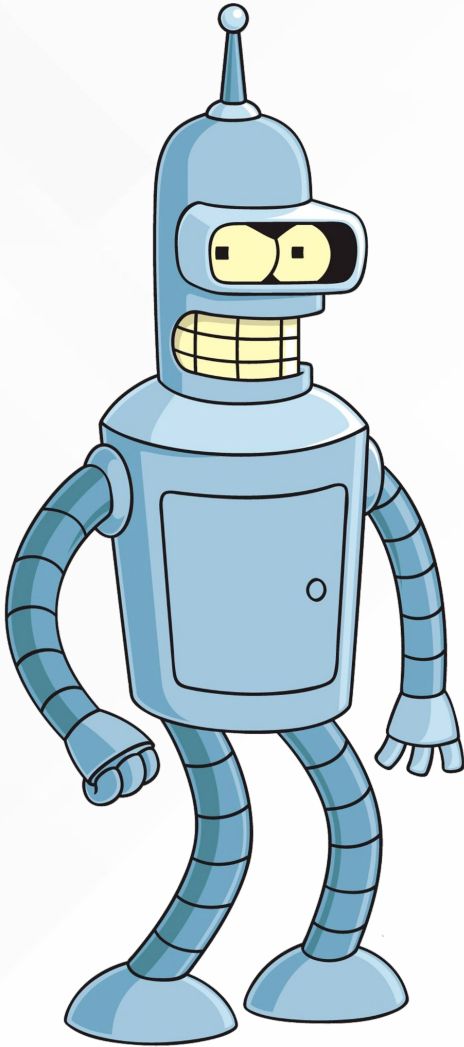

```
<!-- incorrecto -->  
<form class="login-form">  
  <div class="login-form__content">  
    <input class="login-form__content__input">  
    <input class="login-form__content__button">  
  </div>  
</form>
```

```
<!-- correcto -->  
  
<form class="login-form">  
  <div class="login-form__content">  
    <input class="login-form__input">  
    <input class="login-form__button">  
  </div>  
</form>
```

MODIFICADOR

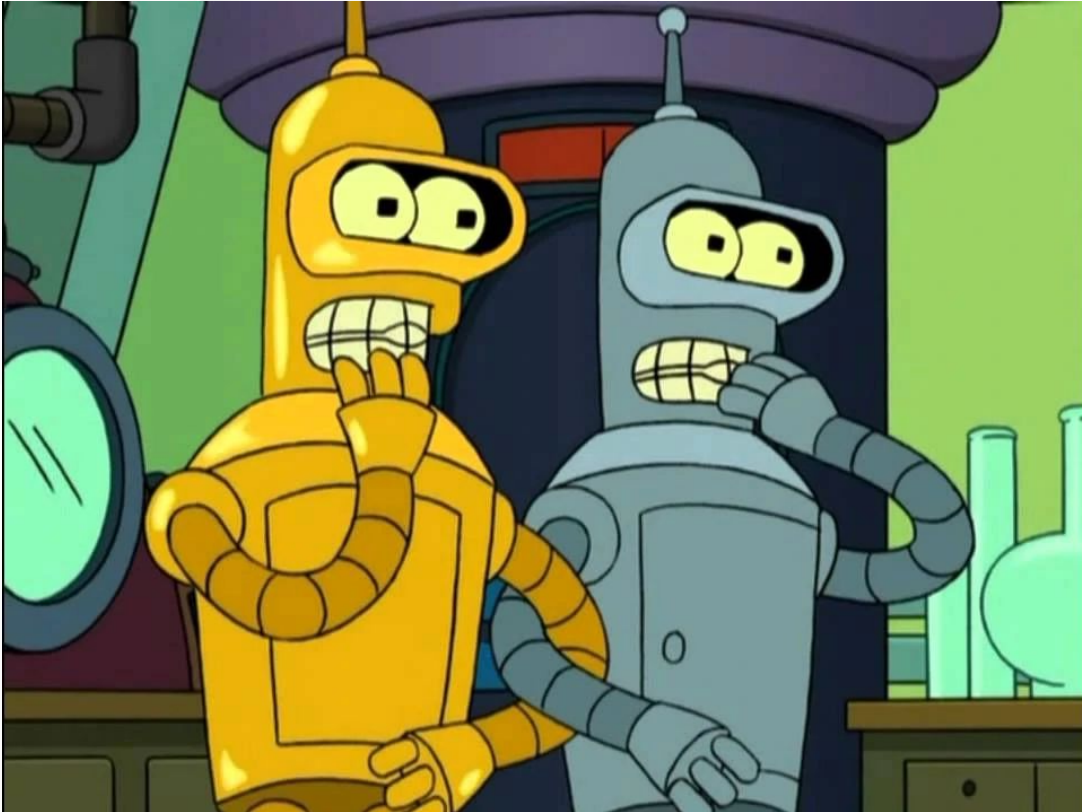

```
<form class="login-form login-form--focused">  
  <div class="login-form__content">  
    <input class="login-form__input">  
    <button class="login-form__button login-form__button--disabled">  
  </div>  
</form>
```

EJEMPLO: BENDER

```
<div class="bender">  
  <div class="bender__head"></div>  
  <div class="bender__arms"></div>  
  <div class="bender__legs"></div>  
</div>
```

EJEMPLO: BENDER

```
<div class="bender bender--gold">  
  <div class="bender__head"></div>  
  <div class="bender__arms"></div>  
  <div class="bender__legs"></div>  
</div>
```
